

2009 Wedding Price List:

2009 pricing

We have moved to a single €1450 package option for 2009, comprising 4 hours of unique high quality photography and a 50 page hand bound 12" leather photo album, containing 50 images of your choice, in a presentation box. We offer additional photography and other extras as outlined below. Please note, we are not doing Graphi-studio or similar style albums at present.

The package covers attendance at the church/registry office from the arrival of your guests, until just before your guests are called for the meal. Most couples will find that this gives a very good flavour of the day, and if you wish to go to a chosen location such as the beach, a castle etc. for formal or fun photos this is included. There is no limit on the number of photos taken on the day. This gives a good selection of images to choose from. Your image selection will take place at our studio, using special software to allow you to see all images at full resolution and to quickly compare and narrow your choices. This makes the album design very simple and clear, with no worries about missing detail on small proof sheets.

Extras—Additional Coverage

Should you require a visit to the brides home before the ceremony, or perhaps coverage of speeches, dancing etc, an extra charge is added to cover attendance time, as well as processing of the extra images taken. Details are on the price list.

Prints of your images

We offer prints of images from your wedding day at very competitive prices, from as little as €5 per print for a quantity of 6x4" images. Options include prints in folders, high quality archival quality framed prints and canvases, as well as small albums for parents and friends. Please enquire for prices. We prefer to do our own printing in-house to guarantee image quality for our clients.

CD of your images

We offer a CD of proof quality images for €150. All images which are shown at your viewing are included at 5x7" print resolution. These may be used for personal use, but not sold or distributed for publication or otherwise put in the public domain (e.g on MySpace, Bebo etc) Similarly images may not be digitally altered as this may compromise the quality and public perception of our work. We request that fair usage takes place with digital images.

Please Note

Travel is normally applied at the rate of €0.45 per Km for travel outside of the greater Wexford area. This figure is usually pre-agreed, with excess distance only being charged. Meal and accommodation may be charged for in the event of late or overnight attendance.

Where CD's of images are supplied, clients are advised that copyright remains with the photographer, and that images may not be modified, sold or published without permission. Terms and conditions of this will be contained in your wedding contract
